

Aspire Down Under has negotiated special rates with Global Phoneworks (GPW) to help our clients stay in contact with family and colleagues 24/7 while traveling.

 **Keep In Touch Worldwide:** We know that you want to keep in touch when travelling abroad, but your U.S. cell phone is likely not compatible with mobile phone technology used in other countries. Let GPW provide you with cellular and satellite phones that roam seamlessly worldwide.

 **Cell Phones:** We offer international cell phones that work in more than 150 countries.

 **Satellite Phones:** Stay in touch while travelling aboard an ocean cruiser or in an exotic destination.

 **Easy To Use:** Your cellular phone will arrive ready to use. Included with the phone are a Quick Start Reference Guide, calling cards, a replacement battery, a charger, a "shaver" outlet adapter and a return-shipping label.

 **Know Your Costs:**

For Cellular Weekly Rentals *

Roundtrip shipping charge	\$25.00
First week rental charges	Waived
Subsequent week rental charges	\$15.00 per week
Optional handset insurance (\$150.00 deductible)	\$25.00

 **Feel Secure:** No matter where you travel, you always have access to a phone. No more looking for a pay phone and then not having the local currency or phone card. Your cell phone uses the same telephone number throughout your entire trip, so your friends and family will rest assured that they always know how to reach you.

 **Know Your Number Before You Go:** Before your trip, you will receive business cards printed with your phone number and dates of travel. Simply distribute these to friends and family prior to departure.

 **Three Ways To Order Your Phone:** (1) Call toll-free (800) 556-0530 (mention Aspire Down Under to guarantee your savings); (2) A fax order form is located on the reverse side [fax to (703) 903-4470]; or (3) Visit www.globalphoneworks.com/aspiredownunder
